Details

The Eurospring ES-30H 30L Glass-Lined Water Heater delivers dependable hot water for your household needs. This horizontal model, identified by product code ES-30H, is designed for efficient and long-lasting performance. Its glass-lined tank provides superior protection against corrosion, ensuring years of reliable service.

Durable Glass-Lined Tank: The interior of the water heater features a premium glass lining that resists corrosion from water and minerals, extending the life of the unit.

Horizontal Design: The horizontal orientation allows for installation in tight spaces, making it ideal for apartments, condos, and homes with limited vertical clearance. Its compact design maximizes space utilization.

Efficient Heating: Equipped with a powerful heating element, the ES-30H quickly heats water to your desired temperature, providing hot water on demand. This efficient heating process minimizes energy consumption and reduces utility costs.

Easy Installation: The ES-30H is designed for straightforward installation, with standard plumbing connections for easy integration into your existing water system. Professional installation is recommended for optimal performance and safety.

Reliable Performance: Eurospring is a trusted brand known for its quality and reliability. The ES-30H is built to last, providing years of dependable hot water service. Enjoy peace of mind knowing your hot water needs are covered.

The Eurospring ES-30H 30L Glass-Lined Water Heater is the perfect solution for reliable and efficient hot water. Its durable construction, space-saving design, and efficient heating capabilities make it an excellent choice for any home.
