Details

Upgrade your furniture security with the Admore Smart Fingerprint & Keypad Cabinet Lock – a next-generation lock that combines biometric fingerprint recognition with a numeric keypad for **dual unlocking options**.

Perfect for **wardrobes, file drawers, cabinets, and wooden furniture**, this hidden lock provides **keyless convenience, child safety, and privacy protection** for both home and office use.

Designed for easy installation, the lock is **concealed inside the furniture**, keeping your interiors elegant while ensuring reliable protection.

Powered by a **rechargeable battery with USB charging**, it delivers long-lasting performance and quick recharging when needed.

Key Benefits

- **Biometric + Keypad Access** – unlock via fingerprint or numeric PIN code.
- **Hidden Installation** – discreet lock mechanism keeps furniture looking clean.

-
- **Keyless Convenience** – no more lost keys, just your fingerprint or code.
 - **Child Safety & Privacy** – prevents kids or unauthorized access to drawers and cabinets.
 - **Rechargeable Power** – USB charging ensures reliable, long-lasting performance.
 - **Multi-Purpose** – ideal for wardrobes, file drawers, cabinets, and wooden furniture.

Whether securing sensitive office documents or valuables at home, the

Admore Smart Lock provides **modern convenience, advanced security, and peace of mind.**
