

ES300-SSP - 300L Solar Water Heater, Single Panel, 3Kw Backup

DATASHEET

Overview

Eurospring ES300-SSP solar water heater: 300L capacity with single panel & 3kW backup. Save energy & money! Reliable hot water, even on cloudy days. Efficient & durable.

Specifications

Brand	Eurospring
Product Code	ES300-SSP

Details

The Eurospring ES300-SSP solar water heater provides an efficient and eco-friendly solution for your hot water needs. This 300L system utilizes a single solar panel to harness the sun's energy, significantly reducing your electricity bills. The integrated 3kW electric backup ensures a continuous supply of hot water, even when solar energy is limited. Ideal for families and small businesses looking to reduce their carbon footprint and save money.

High-Efficiency Solar Panel: Maximizes solar energy absorption for optimal water heating performance.

300L Tank Capacity: Provides ample hot water for households and small commercial applications.

3kW Electric Backup: Guarantees hot water availability regardless of weather conditions.

Durable Construction: Built with high-quality materials to withstand harsh weather and ensure long-lasting performance. The Eurospring ES300-SSP is designed for years of reliable service.

Reduced Energy Costs: Significantly lowers your electricity bill by utilizing solar energy for water heating.

Eco-Friendly Solution: Reduces your carbon footprint by utilizing renewable energy.

The Eurospring ES300-SSP is a smart investment for a sustainable future. Enjoy consistent hot water while saving money and contributing to a greener planet.
