Details

The REU-2-USB Roska 4 Gang Universal Switched Socket Extension with USB Charging Ports offers a convenient and safe power solution for your home or office. This robust extension lead features 4 universal sockets, allowing you to plug in a variety of devices, regardless of their plug type.

Universal Compatibility: The Type U (Universal Sockets) accommodate plugs from various countries, making it perfect for travelers or those with imported devices.

Durable Construction: Made from high-quality ABS PVC, the extension lead is built to last. The 5-meter cable is crafted from 99.9% copper, ensuring optimal conductivity and safety.

Safety Features: Equipped with a 13A BS1362 cartridge fuse, overload protection, and a power indicator light, this extension lead prioritizes your safety. It also meets UAE.S IEC 60884-2-5 and UAE IEC 60884-1 safety standards and is CE and RoHS certified.

Technical Specifications: Voltage Rating: 250V, Current Rating: 13A Max, Power Rating: 3250 Watts Max, Wire: 1.25mm², 3 Core PVC cable with a Type G (3 Pin UK Fused Plug). Copper terminals and grounding provide an extra layer of safety.

Warranty & Peace of Mind: Backed by a 1-year warranty, you can trust in the quality and reliability of this Roska

extension lead. Its white color blends seamlessly with most interiors.
