

DATASHEET

Overview

Eurospring ES300-SDP 300L Solar Water Heater. Double panel design for efficient heating. Includes a 3Kw backup for reliable hot water, even on cloudy days. Invest in sustainable energy!

Specifications

Brand	Eurospring
Product Code	ES300-SDP

Details

The Eurospring ES300-SDP solar water heater offers an efficient and eco-friendly solution for your hot water needs. This 300L system utilizes a double panel design to maximize solar energy absorption, ensuring optimal heating performance. The inclusion of a 3kW electric backup provides peace of mind, guaranteeing hot water even when solar energy is limited.

Efficient Solar Heating: The double panel design significantly enhances solar energy capture, providing more hot water with less reliance on electricity.

Reliable Backup System: The integrated 3kW electric backup ensures a constant supply of hot water, regardless of weather conditions.

300L Capacity: Ideal for medium-sized households, providing ample hot water for daily needs.

Eurospring Quality: Built to last with high-quality materials and expert craftsmanship, ensuring long-term performance and reliability. The ES300-SDP is a smart investment for homeowners looking to reduce their energy bills and environmental impact.

Easy Installation: Designed for straightforward installation, minimizing setup time and costs. Please consult with a qualified installer for optimal performance and safety.
